Writing

My most recently played and favourite game is Deltarune. The main plot follows Chris, the main character and who we play as, who lives in a small town, and has ^{almost} completely no friends. One day, ^{his} teacher asks him and a bully named Susie to go ^{and get} some chalk. They open the door to the room, where the chalk is and fall into the Dark World, where they need to seal the Dark Fountain. This is an RPG, where you battle monsters, and you need to spare or defeat them. Also it has a ton of dialogues, that tell the story of the game. I recommend playing it because it has great writing and game mechanics. It also has a great fanbase. So hope you enjoy it!

Writing

I'll write the review of the game named „Hearts of Iron IV”. This is a global strategy, about the Second World War or any other periods of the human history, if you modify it. There ^{are} no characters, except the rulers of the countries. The plot of the game is to play countries in Second World War time period. There is no ~~can~~ definite place, where everything ^{is} going on. ^{The} Aim of the game is given by a player, because there's no real aim of the game. I would recommended this game to the lovers of the strategy or people, who want to rule the world, even if it's virtual one. This is a very interesting and unique game.
